

I believe K-LOVE is a vital part of our community. The station provides family friendly, safe entertainment for our family. K-LOVE has a positive impact on our community because of its programming (both entertainment and information). K\_LOVE provides a community calendar specific to our area as well as information on national issues I and my family are concerned about.

If K\_LOVE were to be replaced an LPFM, there is no guarantee that the LPFM would provide the same family oriented content and safe entertainment for my family. K-LOVE provides personal services (E.g. prayer, resource identification and other "help" services). I believe that these services might be (probably will be) eliminated by an LPFM. K\_LOVE is positive, it is family oriented and provides services to its listeners. It makes a positive difference in our community, and I personally know of 5-6 lives that have been changed due to the effect of K\_LOVE's positive supportive programming.

Please do not allow LPFMs to take priority over current FM translator services.
